Early Childhood Programs 2023-2024

Summer Childcare

The Summer program allows our students with a structured learning environment that will encourage exploration and discovery through active and engaging activities and community visitors. The program provides a structured daily schedule for students including gym time, computers, recess, and large/small group time. The summer calendar of events includes activities on-site, as well as field trips off school grounds (i.e. bowling, swimming, splash pads, parks) for school-age students. Bussed field trips are available to school-age students only. Students are considered school-age if they have completed PreK/Kindergarten, and may only go on bussed field trips after completion of one of these programs.
