Early Childhood Programs 2021-2022

Summer Childcare

The Summer program allows our students with a structured learning environment that will encourage exploration and discovery through active and engaging activities and community visitors. The program provides a structured daily schedule for students including gym time, computers, recess, and large/small group time. The summer calendar of events includes activities on site, as well as field trips off school grounds (i.e. bowling, swimming, splash pads, parks) for schoolage students. Bussed field trips are available to school-age students only. Students are considered school-age if they have completed young fives/ PreK/Kindergarten, and may only go on bussed field trips after completion of one of these programs.
